trees is carefully selected from vigorous,
virus-free trees.

COMPLETE STOCKS

Shade & Ornamental Trees

Fruit Trees	Small Fruits	Nut Trees
	Flowering Shrubs	
Vines	Evergreens	Roses
	Seeds	

GUARANTEE

WE GUARANTEE all nursery stock sold by us to be true to name, otherwise we will replace free or refund the purchase price, at the option of the purchaser.

We guarantee all stock to be free from insect pests or plant disease.

We guarantee all nursery stock shipped by us to be of first quality and in good, live growing condition when it reaches you.

Our stock is carefully handled, has vitality and under ordinary conditions will grow. However, any complaint about failure to start growth must be made in writing, direct to our office by August 1st.

Shipping Season—Our shipping season begins about October 25th and continues until late spring. Where planting conditions are favorable, and if customer requests, we can make shipments in mid-winter.

WE PAY FREIGHT and SHIPPING CHARGES

We pay shipping charges on all stock to any point West of the Rocky Mountains and we prepay $\frac{1}{2}$ of the shipping charges East of the Rocky Mountains.

Parcel Post Shipments.— It is sometimes necessary to cut back tops of trees to comply with parcel post regulations for maximum measurement of parcels. This does not injure the trees, as tops should be pruned back before planting.

Sales Tax — If you live in the State of Washington add 3 per cent Sales tax.

NUMBER OF TREES OR PLANTS FOR AN ACRE OF GROUND—SET AT REGULAR DISTANCES APART

40 feet apart each way	28
30 feet apart each way	48
20 feet apart each way	110
18 feet apart each way	135
15 feet apart each way	205
12 feet apart each way	300
10 feet apart each way	435
8 feet apart each way	680
6 feet apart each way	1210
5 feet apart each way	1745
4 feet apart each way	2725
3 feet apart each way	4840

TABLE OF DISTANCE FOR PLANTING

Apples, standard 30 to 40 ft.	Nectarines, 16 to 18 ft.
Pears, standard, 20 to 25 ft.	Quinces, 12 ft.
Pears, dwarf, 15 ft.	Currants, 3 to 4 ft.
Cherries, Sour, 18 to 20 ft.	Gooseberries, 3 to 4 ft.
Cherries, Sweet, 30 to 40 ft.	Raspberries, 3 to 4 ft.
Plums, 16 to 18 ft.	Strawberries, $1\frac{1}{2}$ to 3 ft.
Peaches 16 to 20 ft.	Grapes, 8 to 10 ft.
Apricots, 16 to 20 ft.	Blackberries, 6 to 8 ft.

RULE:—To estimate the number of plants required for an acre at any given distance, multiply the distance between the rows by the distance between the plants, which will give the number of square feet allotted each plant, and divide the number of square feet in an acre (43,560 by this number and the quotient will be the number of plants required.

FRUIT TREES

WRITE FOR PRICES IN LARGER QUANTITIES

Note: The quantity rate on fruit trees applies to the total number of trees ordered. Example: 5 Apple, 3 Pear, 4 Apricot, would take the "Dozen Rate."

If Interested in Larger quantities Please Write

THE FOLLOWING PRICES APPLY ON APPLE, PEAR, CRAB APPLE, PLUMS & PRUNES, PEACHES, APRICOTS, CHERRIES & NECTARINES, EXCEPT WHERE NOTED

4 to 6 ft.	1.25	1.00	.85
3 to 4 ft.	1.00	.90	.75

All varieties marked with asterisk (*) do well west of the Cascade mountains. All fruit trees listed in order of their ripening.

Apples

Five-In-One Apple

Five varieties on one tree. Ideal for the home garden. Varieties: Yellow Delicious, Red Jonathan, Wealthy, Yellow Transparent, Red Delicious.

\$2.50 each

METZGER APPLE

(Plant Patent Applied For)

New — Early — High Quality — Summer Apple
Originated by Ludwig Metzger of the University of Washington. This firm, highly colored, semi-sweet, large sized Apple ripens in the Yakima district approximately August 15. Excellent for cooking and eating and has remarkable keeping qualities. For home use, the best of all early Apples.

\$2.50 each

SUMMER VARIETIES

- Early Harvest**—Medium size, yellow skin, fine, July.
- Lodi**—Improved strain of Yellow Transparent; fruit much larger; bears earlier.
- Red Astrachan**—Red, juicy, acid, hardy, prolific. July.
- Red June**—Medium size, red, good quality, hardy, July.
- *Yellow Transparent**—Medium, pale yellow, fine flavor, dessert and cooking.

FALL VARIETIES

- Bellflower**—Very large, yellow with blush, tart, juicy.
- Fameuse (Snow)**—Red, juicy, crisp, good eating, hardy.
- *Gravenstein**—Large, striped, tender, juicy, high flavor. One of the best varieties west of the Cascades.
- *Red Gravenstein**—Solid red strain of Gravenstein.

WINTER VARIETIES

- Blackjon**—(T.M. Reg.)—A bud sport or mutation of Jonathan, earlier and more color, deep red. 10c per tree higher.
- *Delicious (Common)**—Large, red, striped, excellent flavor fragrant aroma, fine eating, best for salads.

APPLES (Continued)

- Grimes Golden**—Medium, rich golden yellow, crisp fine flavor.
- Jonathan**—Medium, red striped, rich flavor, unexcelled for pies, good dessert.
- *King**—Very large, yellow, splashed with crimson, excellent dessert, good baker. One of the best varieties west of the Cascades.
- McIntosh Red**—Hardy, medium, red, fine flavor. For high altitude.
- *Northern Spy**—Fine grained, tender, juicy, hardy, keeps. One of the best varieties west of the Cascades.
- *Red Delicious**—Solid red type of Delicious, same quality and flavor.
- Red Rome**—Solid red strain of the Rome Beauty.
- *Red Spy**—Solid red strain of the Northern Spy.
- Red Winesap**—Solid red strain of the Winesap. We have one of the best strains of Red Winesap yet produced—long type.
- R. I. Greening**—Large, greenish-yellow, juicy and tender.
- Rome Beauty**—Large, yellow, striped with red, fine, juicy, unexcelled for baking.
- Splzenberg**—Medium to large, deep red, excellent flavor, an old favorite.
- Stayman Winesap**—Large, striped and splashed with dark crimson, splendid quality, heavy bearer.
- *Wealthy**—Large, bright red, tart, very good.
- Winesap**—Dark red, sub-acid, best market, good keeper.
- *Winter Banana**—Large, clear waxy yellow with blush, tart flavor, good cooking.
- Yellow Newtown (Pippin)**—One of the best keepers, golden yellow, good quality.
- *Yellow Delicious**—Resembles Grimes Golden somewhat in shape, color and quality. Excellent cooker and fine for dessert.

Crab Apples

- *Hyslop**—Large, dark red, or purplish, good keeper.
- *Transcendent**—Large, red and yellow striped, good eating and cooking.
- Whitney**—Large, glossy, striped with carmine, juicy, pleasant flavor.

EXCELLENT TRANSPLANTING QUALITIES

Pears (Budded on French Root Stock)

- ***Clapp's Favorite**—Large, resembling Bartlett, excellent flavor, sweet. Desirable for the home orchard.
- ***Bartlett**—Large clear yellow, juicy, buttery, dessert, cooking and canning.
- ***Flemish Beauty**—Large, white flesh.
- ***B. d'Anjou**—A firm pear, rather large, flesh yellowish-white, rich buttery flavor, good keeper. One of the leading commercial pears.
- ***Comice**—Fine, melting, buttery, juicy and sweet.
- ***Seckel**—Small, brown, red cheek, sweet, juicy, melting. A good pickling pear.
- ***B. Bosc**—Large, cinnamon Russet, long neck, juicy, excellent. High quality.
- ***B. Easter**—Large, yellow with red cheek, juicy and sweet—used to pollinize the Anjou.
- ***Winter Nellis**—Delicious, sweet, very fine, good keeper.
- ***Winter Bartlett**—Large resembling Bartlett, later, good west of the Cascades.

RED SPORT BARTLETT

(Plant Patent No. 741)

Originated on the farm of A. D. MacKelvie, Zillah, Washington. This remarkable new Pear has created such an interest among the Pear growers in California, Oregon, and Washington that we have been unable to grow a sufficient quantity to meet the demand. We believe that it has a great future in the Eastern fresh fruit markets. The Pear has all the characteristics of the Bartlett except that it has a highly colored red skin. \$2.50 each

(Prices on request for commercial plantings)

Dwarf Pears

- Comice—5 to 6 ft. each, \$1.50.
- Red Bartlett— 5 to 6 ft. \$2.50 each.
- Bartlett— 5 to 6 ft. \$1.50 each.
- B. d'Anjou—5 to 6 ft. each \$1.50.

Plums

- Beauty**—Japanese plum. Early, medium size, red, good quality used to pollinize Santa Rosa.
- Climax**—Very large, heart-shaped, deep red, good shipper.
- Santa Rosa**—Probably the best of all the Japanese Plums. Large reddish to purple. Good shipper, good quality and good bearer.

HOWARD MIRACLE PLUM

(Plant Patent Applied For)

This new Japanese Plum was discovered and patented by Howard and Smith, prominent nurserymen of Montebello, California. The best Japanese Plum for eating out of hand that we have ever seen; large sized, heart-shaped Plum; extremely heavy bearer when cross pollinized with the Satsuma. Excellent for home use and should be one of the best of the commercial varieties. \$2.50 each

Plums—(Cont.)

Wild Plum—Native of Oregon. Selected strain, very hardy, prolific bearer, high quality plum to eat out of hand and excellent for marmalade and butter.

***Peach**—Light red skin, large, round, good for home garden.

Satsuma—Japanese Plum. Blood red flesh, pleasant, juicy.

Burbank—Japanese Plum. Vigorous, red, juicy, sweet, yellow flesh.

***Bradshaw**—Large dark red, flesh green. Excellent for eating fresh.

***Yakima**—Very large, egg-shaped, red, good shipper.

***Yellow Egg**—Large, egg-shaped, yellow, good canner.

***Blue Damson**—Small, roundish oval, dark purple, fine canner. Preserves.

Green Gage—Fruit large, greenish yellow, flavor excellent.

Prunes

***Tragedy**—The best early Prune, a favorite. High quality dark purple with yellowish-green flesh, firm, sweet, and highly flavored.

***Early Italian**—(Richard's strain)—Slightly larger and sweeter than the Italian Prune. Two weeks earlier. Good commercial variety. A sport of the Italian.

Weatherspoon—Seedling of the Italian, ripens same time as Richard's strain of Early Italian, large, high quality, heavy bearer when pollenized with Richard's strain of Early Italian.

***Sugar**—Very large, oval, dark purple, tender, sweet particularly fine for home drying and canning.

***Hungarian**—Very large, bright red, market and home use.

***French**—Medium, fine texture, sweet drying.

***Date**—An improved type of the French Prune. Larger than the French with a heavier sugar content. Good for home use.

***Silver**—Large and handsome, oval shape, light yellow skin. flesh firm, rich and sweet. Very heavy bearer.

***Italian**—Good quality, medium size, purplish black color. The leading variety for market and home use.

***Standard**—Large, color purple, flesh amber-colored. Good late Prune for home use.

President—Latest ripening Prune. Heavy bearer, high in quality and large fruit. Does not need pollinizer.

Peaches

Carman—Medium, white flesh, good flavor, juicy, good for table use.

RAMSEY PEACH

(Patent Applied for by W. F. Ramsey)

This remarkable new Peach is a cross between the J. H. Hale and the Candoka. Large, highly colored and very free of fuzz. The tree is a strong grower and a heavy bearer and very hardy in the blossom stage. It ripens about ten days later than the Hale, being a high quality, large, red, firm Peach. Its late ripening should be of considerable advantage on the fresh fruit market.

\$2.50

Peaches

Redhaven—The best new early Peach we have seen in a good many years; ripens about 30 days ahead of Elberta, golden flesh, fine grained, highly flavored. It colors very early to an almost solid brilliant red; hardy; heavy bearer.

***Golden Jubilee—Freestone**—Is similar to Elberta in tree habit and form and appearance of fruit. Good bearer. Hardy. Excellent canning peach. Three weeks before Elberta.

***Rochester**—Very hardy, thrifty grower. Medium size, deep yellow and red, excellent quality. Especially good west of the Cascade mountains. Three weeks before Elberta.

***Halehaven—Freestone**—Eighteen days before Elberta. Resembles Hale in appearance, colors highly on the tree several days before it is ripe. Hardy, heavy bearer, fine flavor. Good shipper. The best early Peach of all.

***Veteran**—One of the new Peaches that is particularly adapted to the climate west of the Cascades. Fruit very uniform in size, yellow flesh; a very high quality peach for both canning and eating.

Slappy—Freestone—Yellow, high quality, hardy, excellent canning peach.

Crawford Early—Freestone—Large, yellow, good quality. A good home garden peach.

Redelberta—(U. S. Plant Pat. No. 232)—A bud sport of the Elberta. A true Elberta in all respects except that it matures about 10 days earlier, and has double the red color. Note prices. 10c per tree higher.

Early Elberta—Freestone—Large, golden yellow, excellent quality, good shipper, and good canner.

Tuscan Cling—Very large, highly colored, commercial canner.

Elberta—Freestone—Best market and canning peach ever produced.

J. H. Hale—Freestone—Surpasses Elberta in size and color. Ranks next to Elberta as a commercial Peach.

Gold Medal—Very good quality. Flesh deep yellow, firm and sweet, large size. Golden yellow. Dessert, canning, market peach. Hardy. Ripens just after Elberta. Very productive—Freestone.

Orange Cling—Large, yellow, rich, excellent flavor.

Salway—Freestone—Large, yellow with red cheek. Fair quality. Ripens very late.

WICKERSHAM PEACH

NEW ! (Patent Applied For)

Originated on the J. A. Wickersham fruit ranch in Yakima. Large as J. H. Hale, highly colored, heavy bearer and about one week later than Elberta. Very high quality, excellent canning Peach. **\$2.50 each.**

Apricots

Phelps—This is one of our own productions. Large, red cheeked. Flesh is firm. Ripens evenly. One week earlier than Moorpark. Good quality.

Yakimine—Large, early, handsome, distinctive flavor. Excellent dessert.

Apricots

Chinese—This is one of the new Apricots that shows promise as an early marketing variety. Medium size, yellow, good quality.

Wenatchee Moorpark—Large, heavy bearer, good color, the leading market Apricot.

Blenheim—Medium size, oval, deep yellow. Good canner, productive, excellent quality.

Tilton—Hardy, medium rich, juicy, canner.

Royal—Very similar to Blenheim. Ripens approximately the same time; good shipping and canning Apricot; good all-purpose variety.

Mac KELVIE APRICOT

(Patent Applied For)

This is one of the few new Apricots which we have observed in many years which shows considerable promise of developing into a valuable commercial variety. It is large sized, high quality, heavy bearing and a vigorous grower. The Apricot is very firm when fully ripe which means that it would be a good shipper. Excellent quality for eating out of hand and a good canner. Ripens a few days ahead of the Moorpark.

\$2.50 each.

Nectarines

Boston—Large size, deep yellow with bright blush, sweet

Quetta—Large, yellow green, rich, delightful aroma, excellent quality.

Gold Mine—Large, red and yellow fruits, flesh juicy, white. Excellent in flavor and quality. Produces abundantly.

Cherries

MAUS EARLY BING

(Patent Applied For)

Ripens about ten days ahead of the regular Bing. Heavy bearing, self-pollenizing; new strain of Bing. This Cherry was discovered by R. H. Maus of Wenatchee. It has been tested for several years and has great merit.

\$2.50 each.

SWEETS

Black Tartarian—Large, purplish black, juicy and rich, certified pollenizer.

Governor Wood—Yellow, smaller than Royal Ann, certified pollenizer.

Royal Ann—Large, pale yellow with red cheek, firm, juicy and sweet. In demand by canneries. One of the leading commercial varieties.

Deacon—Black, resembles Bing, not quite as large. Certified pollenizer.

Bing—Large, black, solid, highest quality, productive. The leading commercial variety of the Sweet Cherries.

Black Republican—Medium, shining black, good keeper and shipper, certified pollenizer.

Cherries, Sweet

Lambert—Dark purplish black, larger than Bing. High quality. Good shipper. Ripens a little later than the Bing.

SOURS

May Duke—Hardy, early, medium, juicy, sub-acid.

Montmorency—Large hardy, rich, juicy, canner.

Late Duke—Large, dark red, sub-acid, late July.

English Morello—Medium, dark red, rich, acid, good.

Quince

Orange—Large, roundish, bright yellow, an old favorite, finest quality. Prices:

PATENTED ROSES

APRICOT QUEEN—(Plant Patent No. 464) Orange apricot base merging to salmony rose and pink in the open blooms. Perfectly shaped buds and healthy foliage.

Price: \$1.25

CAPISTRANO—(Plant Patent Applied For) A. A. R. S. winner of 1950. Rich shade of deep glowing rose pink in bud and open flower, large, full six inches across. Bush grows to a height of four to five feet with beautiful leathery foliage.

Price: \$2.50

CHARLOTTE ARMSTRONG—(Plant Patent No. 455) A. A. R. S. winner. Brilliant slender rich carmine buds with bright red flowers opening to cerise full blooms. Very vigorous grower.

Price: \$1.50

COUNTESS VANDAL—(Plant Patent No. 38) Long tapering buds of coppery orange opening to carmine pink and gold blooms. Long lasting flowers beautiful in all stages.

Price: \$1.35

CRIMSON GLORY—(Plant Patent No. 105) Very prolific grower. Full, high centered blooms of deep crimson. One of the ten most popular roses.

Price: \$1.35

FORTY-NINER—(Plant Patent No. 792) A. A. R. S. winner of 1949. Most brilliant bi-color yet produced. Outside petals rich chrome yellow overlaid with pink changing to straw yellow; inside vivid Orient red changing to cherry red as the blooms age. Long, pointed, well formed buds with well shaped flowers.

Price: \$2.00

FRED EDMUNDS—(Plant Patent No. 731) A. A. R. S. winner. Flowers of burnt orange changing to vivid coppery orange and apricot. One of the earliest to bloom. Has bright green foliage.

Price: \$1.50

GRANDE DUCHESS CHARLOTTE—(Plant Patent No. 774) A. A. R. S. winner. Unique coloring of burnt orange on the long beautiful buds changing to lovely begonia rose in the open flower. Extremely vigorous healthy bush. Blooms very fragrant.

Price: \$1.50

HEART'S DESIRE—(Plant Patent No. 501) A. A. R. S. Winner. Long stemmed buds of pure luminous red opening to shapely blooms of a somewhat lighter sun-proof color. Has an old-time rose fragrance. Foliage rich green with luxuriant growing habit.

Price: \$1.50

HORACE McFARLAND—(Plant Patent No. 730) A. A. R. S. winner of 1945. Deep apricot colored buds opening to rich buff salmon. Buds open slowly to large flowers on strong stems.

Price: \$1.50

MARY MARGARET McBRIDE—(Plant Patent No. 537) A. A. R. S. winner of 1943. Very double, 45 petaled blooms of glowing rose pink with base of shimmering gold. Withstands the heat of the summer without fading.

Price: \$1.50

MIRANDY—(Plant Patent No. 632) A. A. R. S. winner. Deep crimson flower opens slowly from exquisite long pointed buds to rich warm red blooms. Large, very double flowers on long stems.

Price: \$1.50

MISSION BELLS—(Plant Patent Applied For) A. A. R. S. winner of 1950. Long pointed buds borne on long stems producing full centered flowers often measuring 5½ inches across. Deep salmon pink opening to clear shrimp pink. Attractive coppery green foliage.

Price \$2.50

MME. CHIANG KAI-SHEK—(Plant Patent No. 664) A. A. R. S. winner. Delicately scented buds of moon yellow, beautifully proportioned in all stages.

Price: \$1.50

PATENTED ROSES

NEW YORKER—(Plant Patent Applied For) 1949 Gold Medal Award Winner. Immense blooms of clear sparkling red with delightful fragrance. Color long lasting and sun-resistant with bushes upright and vigorous.
Price: \$2.00

Price: \$1.50

CLG. HIGH NOON—(Plant Patent No. 704) A. A. R. S. winner for 1948. Lovely clear shining yellow buds with all the radiance of brilliant sunshine. Grows to a height of 8 feet. Recommended for mild climate and Pacific Coast regions.

Price: \$2.00

CLG. MRS. SAM McGREDY—(Plant Patent No. 374) Long coppery buds shaded to yellow at the base unfolding to brilliant orange. Blooms change to a lively pink during warm weather. Pleasing fragrance. Blooms borne in huge quantities throughout season.

Price: \$1.50

CLG. PICTURE—(Plant Patent No. 524) Large, long lasting flowers, pink with warm undertones of salmon and sweet tea fragrance. Medium sized blooms but with excellent symmetry and loveliness. Thrifty grower with strong erect stems and good foliage.

Price: \$1.50

CLG. SANTA ANITA—(Plant Patent Applied For) Clean well shaped buds of clear pink opening into lovely blooms of deep pink. Sun-fast color. Blooms early and continues throughout the season.

Price: \$1.50

Patented Floribunda and Polyantha

PINKIE—Polyantha (Plant Patent No. 712) Long slender dainty little buds opening to full pink blooms 2 inches across on long stems; long enough for cutting. Perfection in form heretofore unknown in baby roses. Blooms continuously from spring until fall.

Price: \$1.50

BETTY PRIOR—Floribunda (Plant Patent No. 340) Lively red, opening to shell pink. A colorful myriad of blossoms resembling those of the red dogwood. Healthy vigorous plants, sturdy yet delicate in appearance.

Price: \$1.25

DONALD PRIOR—Floribunda (Plant Patent No. 377). Produces immense clusters of deep red flowers giving a mass color effect of depth and interest. Grows to a height of 30 to 36 inches with strong dark green foliage.

Price: \$1.25

FASHION—Floribunda (Plant Patent No. 789) A. A. R. S. award winner. A lovely new color, coral suffused with gold in enormous clusters of continuous blooms, blooming without interruption from early June until frost.

Price: \$2.00

MING TOY—Floribunda (Plant Patent Applied For) High centered brilliant rose crimson flowers comparing favorably with the finest camellias in form. Blooms have 50 or more petals and last five to six days when cut.

Price: \$1.25

PINOCCHIO—Floribunda (Plant Patent No. 484) Extremely hardy, always in bloom with hundreds of flowers of rich appealing salmon flushed with gold at the base gradually changing to soft clear pink as the sweetheart flowers open. Perfect for miniature or mass flower arrangements.

Price: \$1.25

Patented Floribunda and Polyantha

RED PINOCCHIO—Floribunda (Plant Patent Applied For)
Combines the best qualities of Pinocchio and Donald Prior. 3½ inch delightfully fragrant blooms borne in large, long lasting unfading clusters. A rich carmine which deepens and acquires a velvety cast as buds open fully. Price: \$1.50

WORLD'S FAIR—Floribunda (Plant Patent Applied For)
Continuous display of color in clusters of velvety, rich scarlet flowers which almost hide the luxuriant foliage. Large, double, exceptionally hardy flowers. Price: \$1.25

LIBRARY OF THE
MUSEUM OF NATURAL HISTORY
NEW YORK

Planting Instructions

GENERAL

Do Not use commercial fertilizer or barnyard manure in such manner that it comes in contact with roots.

Do Not expose roots to air.

It is beneficial to the trees or plants to immerse the roots in water before planting. Many failures of newly transplanted stock are due to lack of proper pruning. Follow pruning instructions given for each class of nursery stock. The holes for planting must be large enough to receive the roots freely without bending them from their natural position. All broken or mutilated portions of the roots should be cut off so as to leave the ends smooth. All trees and plants should be planted two inches deeper than they stood in the nursery row; pack the soil firmly about the roots by tamping with the feet, being careful not to bark or break the roots. Leave three inches of the surface soil loose to serve as a mulch. If the ground is very dry apply one or two pails of water before this soil mulch is in place and after the water has soaked away it can then be placed over the moist soil.

FRUIT TREES. Follow general planting instructions.

Branched. Select three or four of the best side branches, well-spaced so as to balance the tree. Prune these back one-third and cut off all other branches close to the trunk.

Whips (without branches). Trees having no side branches, cut off top just above a bud 24 to 36 inches from the ground.

SHADE TREES. Follow general planting instructions. Shade trees having a heavy top, at least one-third of the top area should be removed. Prune to avoid crowding the branches. Cut out some of the smaller branches and shorten back the side branches, but do not cut off the leader or main stem.

ROSES. Follow general planting instructions. Be sure that the bud is two inches below the ground. If the soil is dry, it is well to plant the rose solidly, then wet thoroughly and after the water has soaked away, throw up a small mound of earth five or six inches high around the plant. Then cut off the branches one inch

(Continued on the Back page)

Planting Instructions

(Continued from Inside Back page)

above the mound, leaving it this way for ten days or two weeks, or until the buds start and show a desire to grow, when the dirt mound can be raked down. Roses handled in this manner seldom fail to make a good start and a very satisfactory growth.

RASPBERRIES, BLACKBERRIES, YOUNG-BERRIES, LOGANBERRIES, BOYSENBERRIES and DEWBERRIES. Follow general planting instructions. Cut back tops within six inches of the ground.

BLUEBERRIES, CURRANTS and GOOSE-BERRIES. Follow general planting instructions. These plants require no pruning until shoots begin to crowd, after several years.

STRAWBERRIES. Dip roots in water and plant immediately then irrigate or pour a pint of water around each plant. Plants are easier to handle if roots are sheared off a little, leaving them about four inches long.

GRAPE VINES. Follow general planting instructions. Prune back to one cane and cut this cane back to two or three buds.

PRIVET for hedges. Follow general planting instructions. Prune back to six to ten inches above the ground.

EVERGREENS and BROADLEAF EVERGREENS. These plants are dug with a ball of earth and wrapped in burlap. Dig the hole about six inches wider than necessary to receive the ball of earth; however they should not be planted any deeper than they stood in the nursery. Half fill the hole with good rich top-soil, pour in enough water to fill the hole so that it will wash the dirt solidly around the base of the ball. Straighten the plant up; cut the wrapping around the top of the ball, and fill in remainder of hole with dry soil, tamping down firmly. Leave a basin-like depression around the plant to facilitate absorption of water. Do not make a hill, as it compels the water to flow away from the plant. All evergreen plants need a mulch, which prevents evaporation of water in the soil. Peat moss is an excellent material for this purpose.

NOTE

Our many years of experience in the nursery business enable us to give you valuable and practical information and service in selecting, planting and caring for plantings. It has always been our aim to furnish a superior quality of the best varieties of nursery stock and to maintain policies that make our customers of today our customers of tomorrow.
